

START

```
graph TD; START([START]) --> Wait1[0.5ms待つ]; Wait1 --> Output1[/スピーカへ1を出力/]; Output1 --> Wait2[0.5ms待つ]; Wait2 --> Output2[/スピーカへ0を出力/]; Output2 --> Wait1;
```

The flowchart illustrates a square wave generation process. It begins with a 'START' terminal, followed by a loop of alternating high and low signal outputs to a speaker. Each output is preceded by a 0.5ms delay. The loop continues indefinitely.
